**LOT 98 - Seeing the Light: Wilderness and Salvation**

**Description**

*Seeing the Light: Wilderness and Salvation, a Photographer's Tale* tells Clyde's story of "struggle against waste and human carelessness that cost the life of his son and drove him to the solitude of the Everglades. There he discovered a living, timeless beauty found nowhere else on earth and began to record it on film. But he also encountered another kind of loss, a squandering of perhaps the last chance to save America's most threatened wilderness."
